

## ABOUT US

We are committed to making digital transition simple, efficient, and reliable. We bridge the gap between world-class industrial supply and local accessibility, ensuring our clients receive verified, high-quality products through a streamlined procurement experience backed by strong trading insights and operational efficiency. Beyond supplying hardware, we deliver integrated prepaid smart metering solutions that simplify utility management, enhance visibility, and elevate the quality for communities and businesses alike.

# OFFERINGS FOR OUR PRODUCT & SOLUTION

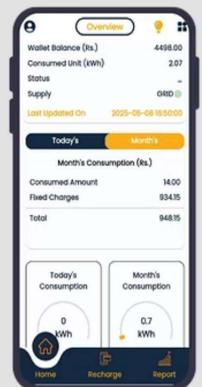

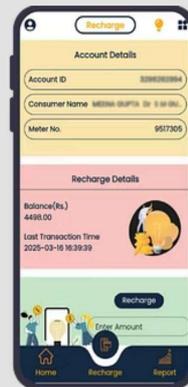

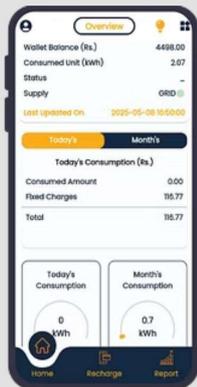

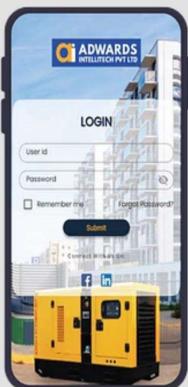

## FROM METER TO INSIGHT — UNIFIED AMI PLATFORM

Utility-grade AMI platform delivering secure, scalable and intelligent energy data management

- AMISP-compliant HES and MDM architecture
- Multi-vendor interoperability for DLMS/COSEM smart meters
- Scalable design for large DISCOM rollouts
- Secure remote operations, including connect/disconnect and OTA firmware
- Integrated prepaid and postpaid metering workflows
- Comprehensive energy and load parameter monitoring
- Event-driven alerts for tamper, outage and anomalies
- Advanced MIS dashboards for consumer, DT and feeder analytics
- Open APIs for seamless integration with Billing, CIS and OMS

## MOBILE - FIRST DASHBOARD EXPERIENCE

## MULTIPOINT COMPLIANT PREPAID / POSTPAID METERING SYSTEM

Unified energy management platform for apartments, commercial complexes and institutional campuses

- Two-way communication for scheduled and on-demand meter reads
- AES-128-based secure data communication
- Intelligent tamper detection with configurable remote actions
- Flexible prepaid and postpaid billing support
- Centralised load control and demand optimisation
- Web and mobile access for operators and end users
- Interoperable architecture for smart energy environments

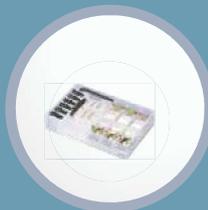

## POWER YOUR PROJECT THROUGH PRECISION & SCALE

Our platform streamlines procurement by providing a direct channel to high-quality electrical and electronic equipment for large infrastructure programs. We connect high-demand projects with dependable supply, enabling competitive pricing and assured delivery.

Why Partner With Us?

- Real-time shipment visibility
- Assured quality and compliance
- Transparent, centralized procurement for bulk efficiency
- Reliable execution for large-scale deployments
